Art Unit: 1612

Claims 1-9 are pending. Amendments are entered. Claims 1, 6, 8 and 9 are allowed.

Summary of this Office Action dated June 8, 2008

1. 35 U.S.C. 112 (2) Rejection
2. Response to Remarks
3. Communication

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-5 and 7 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply:
3. Claim 2 contains protective group $-(C=O)-R$ which is not in claim 1. Therefore, claims 2-5 are improperly dependent on claim 1. Applicant is requested to amend the claims accordingly.
4. Claim 7 recites "derivatives" which is indefinite. It may include any known or unknown compounds. Applicant may consider deleting this term.

Response to Remarks

Applicant's remarks have been considered. It appears that US Patent 6,659,922 does not belong to the present invention. Applicant is requested to check and confirm. Upon further review some rejections are being made as cited above.

Allowable Subject Matter

Claims 1, 6, 8 and 9 are allowed. Prior art of record does not teach vitamin D derivative as has been presently claimed. Claim 6 is drawn to composition and has been allowed as composition and not for its intended use because claim is drawn to "a pharmaceutical composition comprising an effective cell proliferation and differentiation affecting of at least one

Art Unit: 1612

compound as defined by claim 1". Since the intended use includes the treatment of any disease caused by proliferation or differentiation the claim contain certain enablement issues.

Due to certain 112 issues as cited above this action is non-final. No call has been made because the issues may not be resolved by Examiners amendments.

In order to advance the prosecution Applicant may consider calling the examiner to discuss the issues surrounding this application.
